

L&H Services, Inc., Heating - Cooling

The Turbo®200 Multi-Top Capacitor is a great time saver! We used to carry one to two tubs of Capacitors per service truck. With the Turbo®200 you can slip one in your pocket and go to work. The size is extremely universal. I have not found a unit it will not fit in. The combinations have worked for most situations, plus you are not traveling to a parts house. We complete our repairs and have satisfied customers.

We are very happy with the Turbo®200.- Beecher, IL
